NHSEB Scoring Criteria

The NHSEB scoring criteria should be used in conjunction with the NHSEB score sheet and NHSEB judge rules and guidelines. Please remember, teams are strongly encouraged to think of themselves as being on the same side rather than as opponents. That is, both teams are working together to solve a difficult problem—while impressing the judges with thoughtful analysis and support. Listening to the other team with an aim to affirm, supplement, or build on their argument is a prudent approach.

Part 1: PRESENTING Team’s initial presentation (15 Points Total)

A) Did the presentation clearly and systematically address the moderator’s question? (5 points)
- 5 = Crystal clear presentation with all key dimensions appropriately addressed.
- 4 = Reasonably clear and systematic with most key dimensions well developed.
- 3 = Hard to follow the argument. Significant dimensions missed (passable).
- 2 = Serious logical problems or underdeveloped argument (poor).
